AND OKANAGAN ORCHARDIST

VOLUME 17

Kelowna, British Columbia, Thursday, July 22, 1920

NUMBER 1

FIVE FIRMS WILL SELL NEAR-BEER

Council Grants All the Applications Lodged—Police Appointment Is Made

Aldermen Knowles and W. Lloyd-Jones were unable to be present at the regular fortnightly meeting of the Council on Monday night, the former being out of town and the latter slightly indisposed.

A request from the jitney drivers of the city was laid before the Council, asking that a licence fee of \$50 per annum be levied on all persons plying with cars for hire. The petition was signed by A. B. Almour, George Grant, C. Fowler, John Murray, Kenneth MacLaren, The Jenkins Co., Ltd., and Treco Motors, and it pointed out that a number of drivers were running their cars as a side issue after business hours in their regular employment, and others were plying from outside the city and thus escaping with the low provincial licence of \$5. Vernon had levied the \$50 rate on jitney drivers and also required them to enter into a bond to remain in business for at least six months, and the petitioners requested that Kelowna adopt the same policy as a measure of protection to the public and to those driving cars as their regular occupation.

With an eye to revenue, the Council expressed themselves as only too glad to accede to the request, but the matter will first be submitted to the City Solicitor for his opinion regarding the municipal powers as to imposing such licences.

The City Clerk reported that he had answered a query from the Shepard Fruit Products Co. regarding the kind of motors, two or three-phase, that they could use in their proposed factory here, which led the Mayor to remark that it looked as though they might go ahead with their project here after all.

Applications for near-beer licences were received from Raymer & MacRae, the Ballard Hotel Co., Johnston & Johnston, Barnes & Sullivan and the Occidental Fruit Co., Ltd., and, on motion, all of them were granted. It was decided to instruct Chief Thomas to warn all those who have been selling near-beer but have not applied for a licence that they must discontinue selling at an early date.

The Occidental Fruit Co., Ltd., forwarded a cheque for \$20 for rental until Dec. 31, 1920, of Lot 7, Registered Plan 1303, and a motion was passed confirming the renting of the property to that firm.

The advisability of buying a car-load of four-inch water pipe was discussed at length. Many connections have to be made and some pipe will have to be laid in connection with the installation of the extra hydrants recommended by the Fire Brigade, but pipe has risen in price to such an extent that a car-load would cost \$4,000 and the City has not enough spare cash on hand to make so large a purchase at one time. It was therefore decided regretfully that the pipe will have to be bought from time to time in smaller quantities. As the purchase and installation of the extra hydrants and extension of the water system to Coronation Avenue will cost about \$2,500, the suggestion of the Mayor that the matter be laid over until after the taxes for the year have been received, was adopted. If the money is then available, the work will be proceeded with. Meantime, it was agreed to purchase and install three hydrants at the points most urgently required, as indicated by the Fire Brigade.

In answer to advertisements for a policeman to take the place of Mr. Dare, who had failed to report for duty after receiving the appointment, no less than thirty-seven applications were received, many of them supported by strong testimonials and carrying records of wide experience in police work. The merits of the candidates with the best qualifications were discussed fully, and it was finally decided to appoint Mr. Edwin Croft, of Vancouver, at a salary of \$125 per month.

Mr. Croft, who is forty-six years of age, has had very extensive police experience, including service as a superintendent of railway police in South Africa, inspector of C. P. R. police, Montreal, detective, B.C.E.R., Vancouver, and constable, Dominion police. He has also seen much military service, and holds the Distinguished Conduct and Meritorious Service medals.

Subject to the proviso that applicants for the houses shall put up certain small differences between the estimates and the tenders, bids for houses under the Housing Act were accepted as follows: By Ryan & Dore, for H. G. Marshall, \$2,900, for H. G. Pratt, \$2,925, for Mrs. Sands, \$2,925, for F. Neill, \$2,450; by the Okanagan Building & Trading Co., Ltd., for Mrs. Lupton, \$2,750. By-law No. 276, levying a poll-tax on male persons over eighteen years of age, was reconsidered, finally passed and adopted.

A plan was submitted of the hotel

BOLSHEVIKI ASSUME AGGRESSIVE ATTITUDE

GENEVA, July 22.—It has been learned from trustworthy sources that an extraordinary council, presided over by Trotsky, was held at Moscow on July 10, when it was decided that no peace shall be concluded with Poland except such as will reduce that country to military impotence. It was also decided to reconstruct the Russian Empire as in the days of the Czar and to extend the political frontiers of Bolshevism.

GLENMORE

Mr. Alfred Ross Grafton, of Montreal, who is making a holiday trip through the West, was a guest this week of Dr. and Mrs. William Giles.

Mr. D. Alexander left on Saturday morning for Montreal. He expects to return shortly with his wife and family.

Miss Edith Rankin returned from the Coast on Thursday last.

Messrs. Andrew Clarke and Torrance Reid moved into town on Friday. Mr. Reid fell from some scaffolding on Tuesday, spraining his wrist. Glenmore is often the safest place.

Our telephone work appears to be at a standstill. It is more than two weeks since holes were dug for poles, and the poles placed alongside. How much longer does Glenmore require to be patient?

A telephone pole near town fell down recently, and for several days has been left lying partly across the road. Perhaps if some one snipped the wire, it would quickly be replaced.

A dangerous hole in the road caused by the breaking of a culvert still remains a menace. Is there any use in reporting these matters?

The "rule of the road" change has been responsible for one of our cars finding a temporary home in the garage with a smashed up wheel.

Mr. Fred Paul has returned from a vacation looking very fit.

For the past three Sundays we have had the opportunity of hearing the Rev. W. R. Coventry, of Wapello, Iowa, at the evening service in the school house. While spending a vacation in the Okanagan, he kindly gave us part of his time. He will not be with us on Sunday next, so no service will be held. Some one has given us to understand that they did not know there had been regular services. We regret this for as much publicity as possible has been given to this matter, and a regular service has been held at 7:30 p.m. every Sunday for four months.

ELLISON

Mr. Thos. Bulman has gone on a visit to Calgary, and expects to return this week-end.

Mr. and Mrs. Clower are building a new house. Their daughter, Mrs. Bruce, is visiting them.

A meeting of the Scotty Creek water users is to be held at the school on Friday night, at 8 o'clock. We hope that Mr. Groves, the District Engineer, will be able to attend and assist us in completing our organization.

The work on the cement ditches appears to be still progressing, in spite of the engine, which has had to be helped out various times by tractors from two of the neighboring ranches. It is to be hoped that the ditches will be completed before the storage water is exhausted.

Miss E. Carney has returned from Salmon Arm.

Owing to the widely distributed character of our district it is difficult to keep in close touch with everybody, more especially during the busy summer months. If anyone having local news would communicate same to a writer, it would help to make these notes more interesting.

site in the Park as newly surveyed. According to figures given by the Mayor, the City would give the syndicate about .16 of an acre and would receive in return about .07 of an acre, covered at present by the Park promenade, thus transferring about one-twelfth of an acre more than was being received from the syndicate. The new plan did not appear to him to correspond with the original survey made by Mr. Chas. Harvey, and he thought it might be well to have the survey checked by a surveyor on behalf of the City.

The suggestion was concurred in by the Council, and it was resolved to ask Mr. Grote Stirling to check the survey.

Figures were laid on the table showing a very satisfactory increase in water and light revenue as compared with 1919, with a slight falling-off in the receipts from power. The statement was as follows:

	For June only, 1920	1919 Increase
Light, gross.....	\$2,037	\$1,440 \$597
Water, gross.....	2,039	1,336 703
Power, gross.....	417	505 88

The Council adjourned until Monday, August 2, with the possibility of a special meeting being held before that date.

HIGH SCHOOL ENTRANCE EXAMINATION RESULTS

Local Pupils Who Were Successful

Kelowna

Division I.—Percy A. Geen, 603; Ewen I. Hunter, 573.

Promoted on recommendation of the Principal: Frances M. Baylis, Dorothy E. Brown, Alice M. Burtch, Alice Byrns, Minnie B. Curtis, Elva L. Fleming, Margaret M. Fumerton, Maude F. Kincaid, Hazel B. McCallum, Fred A. Morden, Polly Murdoch, Ruthie M. Reid, Florence H. Rider, Mary W. Roberts, Ruth Rowcliffe, Bertha M. Thompson, Frances M. Treadgold, Earl M. Wilson.

Division II.—Promoted on recommendation of the Principal: William H. Ackeroyd, Carl G. Brunette, Muriel D. Dillon, Tennyson E. Groves, Harry D. Mantle, Ithiel A. Morden, Patricia M. Stuart.

North Kelowna

Arthur J. Ward, 657.

Oyama

Charles Richards, 650.

Private School, Kindergarten, Kelowna

Kathleen R. Holman, 610.

Westbank

Ralph H. Jones, 801; Arnold D. McIntosh, 738; Jean D. Brown, 697; Elsie Hannam, 673; Howard M. Jones, 607.

BRYAN HEADS THE PROHIBITION TICKET

LINCOLN, Neb., July 22.—The Prohibition Party in convention here last night nominated William Jennings Bryan by acclamation as "dry" candidate for president, despite his request that his name be dropped.

PREMIER THINKS GERMAN STATESMEN ARE HONEST

LONDON, July 22.—Speaking in the House of Commons last night, Premier Lloyd George said Fehrenbach and Simon, the German Chancellor and Foreign Secretary, were honest and bright men who would do their best to fulfil the treaty obligations, and he declared the Allies have proof that the Germans are making a real effort to solve the indemnity problem.

HEAVY RAIN IN SOUTHERN ALBERTA

LETHBRIDGE, July 22.—Two hours heavy rain fell over all Southern Alberta last night. This will cool off the crops after the recent very hot weather and will help the wheat to fill. It is now expected that harvest will be in full swing by August 20. The rain will hold up the rye and alfalfa cutting.

ENTRIES FOR THE OLYMPIC GAMES

ANTWERP, July 22.—The United States, Canada and Czechoslovakia are the only nations listed to compete in every event of the Olympic games, though there are doubtless some omissions due to delayed mails. Sweden is in for all the events except walking and the tug-of-war, Great Britain has entered for all except the pole vault and javelin-throwing, while Italy will take part in all but the hammer throw and putting the shot.

PANIC CAUSES INDIAN TO DROWN

CHILLIWACK, July 22.—Dougal Mack, an Indian aged twenty, was drowned in the Chilliwack River at Chinatown yesterday afternoon under unusual circumstances. Responding to a telephone call from Chinatown that a number of Indians were fighting, Chief of Police Harding hurriedly appeared on the scene and the Indians immediately scattered, the deceased jumping into the river which is nearby and is very high at present. Being unable to swim, the young man was drowned in the presence of his companions who had reassembled on hearing his cries. The Indians are accusing Chief Harding of causing the death of Mack.

PRINCE OF WALES IN TASMANIA

LAUNCESTON, Tasmania, July 22.—The Prince of Wales arrived here yesterday. He was unable to reply to an address of welcome because of a slight attack of laryngitis.

HE HAD BETTER STAY IN THE UNITED STATES

LONDON, July 22.—Australians here are urging the government to prevent Archbishop Mannix from landing in Ireland and also to forbid his return to Australia.

Mr. Cyril Weddell arrived from the Coast yesterday to visit his parents, Mr. and Mrs. E. Weddell, and may possibly remain here instead of returning to Port Alice, where he has been resident for some time.

MOTORISTS FIGURE IN POLICE COURT

Large Crop of Cases During the Past Week

Some fifteen or more cases charging various offences under the Motor Traffic Regulations Act have been brought into the City Police Court during the last few days by Chief Constable Thomas.

Mr. J. Murdoch, dairyman, Mr. W. A. Newton and Mr. T. R. Grainger, all appeared before Magistrate Weddell last week to answer charges of driving without tail lights and were each found guilty and fined \$5.00 and \$2.50 costs. Messrs. E. Hardie and L. M. Gay, of Rutland, were each allowed to go with a caution for driving without a licence, their excuse being that they were awaiting arrival of the licence after making their application. Mr. B. McDonald, of Kelowna, was fined \$5.00 and \$2.50 costs for driving without two number plates on his car. Mr. M. A. Alsard was charged with allowing a motor car dealer's licence to be used for private use. It appeared that he had loaned a car which he had for sale to Mr. Crawford, who had used it for hauling some crates. He pleaded guilty to the charge but owing to the circumstances was given nothing more than a caution. Mr. C. DeMara was fined \$5.00 and \$2.50 costs for exceeding the speed regulations in the city.

Yesterday morning, Mr. C. R. Reid, of the K. L. O., Mr. A. C. Dunnett, of Glenmore, Mr. G. N. Ward, of Glenmore, and Mr. G. B. Muirhead, of Ellison, were each fined \$5.00 and \$2.50 costs for speeding, the police claiming that two of these offenders were going at over thirty miles per hour. On the same day, Mr. J. C. McDonald was fined \$5.00 and \$2.50 costs for driving without a tail light. Two other charges were dismissed.

ALLIES WILL GIVE AID TO POLAND

LONDON, July 22.—The Allies have decided to take measures to give military aid to Poland against the Russian Soviet, should such aid prove necessary.

CANADA WILL LOSE BOLSHEVIKI BUSINESS

LONDON, July 22.—The arrest and deportation from London last week of Nourteva, the Bolshevik agent, will mean the cancellation of contracts with Canadian firms totalling \$6,000,000.

RIOTS IN BELFAST COST THREE LIVES

BELFAST, July 22.—Rioting between Unionists and Sinn Feiners was resumed yesterday afternoon. Three persons were killed, including one woman, and more than forty were wounded, many of them dangerously. Troops are erecting barbed wire barricades in the streets.

COSTLY TOLL OF SINN FEIN DESTRUCTIVENESS

LONDON, July 22.—Speaking in the House of Commons this afternoon, Sir Hamar Greenwood, Irish Secretary, estimated the total value of the property destroyed in Ireland by the Sinn Fein at over two million pounds.

AMERICAN CONSULATE UNDER HEAVY GUARD

DUBLIN, July 22.—Striking labor extremists backed up a demand for the release of James Larkin, imprisoned in New York on a charge of criminal anarchy, by making a noisy demonstration before the American Consulate here yesterday, and the building is now under heavy guard.

WILL TRY FINANCIAL PRESSURE IN IRELAND

LONDON, July 22.—The British Government plans to fight the revolt in Ireland by refusing money grants to any County Councils controlled by Sinn Fein.

AIRPLANES START ACROSS LAKE MICHIGAN

GRAND RAPIDS, Mich., July 22.—Four army airplanes bound for Alaska left here at 11:30 today on the third leg of their flight, which will take them across Lake Michigan.

WESTBANK

Provincial Constable Graham was in town on Monday.

Provincial Fruit Inspector White was a visitor on Tuesday.

Mr. N. J. Halpin, who has been visiting here, left for home on Thursday last.

HARDING SCORES THE LEAGUE OF NATIONS

MARION, Ohio, July 22.—Senator Warren G. Harding was formally notified yesterday that he is the Republican nominee for President. In his speech of acceptance he scored the League of Nations as a supreme blunder and promised, if elected, an immediate declaration of peace and a new effort to form an association of all nations based on justice rather than force.

ADDITIONAL LOCALS

Mr. Tom Davy returned home on Monday from a visit to Vancouver.

There will be a Church of England service at Rutland on Sunday at 3 p.m.

Mr. Neil Gregory returned on Monday afternoon from a few days' visit to the Coast.

Mrs. J. G. Edwards, of Vernon, accompanied by her daughter Eileen, is spending a week here as the guest of Mrs. J. E. Montague.

Mr. J. L. Wilson and his three daughters, Misses Rosie, Ruth and Dora, returned on Monday from a visit to his daughter, Mrs. Hooper, at Seymour Arm.

Mr. Geo. S. McKenzie is the unfortunate victim of an attack of measles through which he has been confined to his home for the past ten days, but he is now making favorable progress towards recovery.

Mr. Frank G. Budden, who, with his son, had been visiting his father, Mr. G. F. Budden, for a couple of weeks, returned to Seattle this morning. He was accompanied by his sister Miss Marguerite Budden, who will spend her vacation in Seattle.

The "Sicamous" has been running far behind schedule during the past week, owing to the heavy express and freight business entailed by the movement of cherries and early vegetables. As usual, the placing of the "Okanagan" on the run is being off as late as possible while passengers and mail have to suffer the vexatious delays of an entirely inadequate service. So long as people take this sort of thing supinely without protest, it will continue, and it looks at times as though the people of the Okanagan have lost the courageous spirit with which they used to resent such treatment in the past.

EX-KAISER SHOWED SOME WISE FORETHOUGHT

LONDON, July 22.—It is estimated that \$125,000,000 of the personal fortune of the ex-Kaiser is invested in British securities.

G. W. V. A. NOTES

In future, the Canteen will be closed from 2 p.m. to 7 p.m. on Thursday afternoons.

We want to enter a team of fifteen men for the war canoe race at the Regatta, if members willing to take part will put their names on the list at the Club.

While dependents of men who died in the war are to get the gratuity, it is considered the Government might have been generous enough to extend this to the dependents of those who were not drawing separation allowance but who were drawing assigned pay. The fact that a man assigned part of his pay to some one is proof enough that it was needed.

In spite of the heat, there was a good attendance at our meeting on Saturday last. An impromptu smoker was held later with Mr. Barrett kindly presiding at the piano.

It was stated that a convention would probably be held next month in Kelowna of all the G. W. V. A. branches in this constituency, with a view to selecting a candidate for the Dominion House. It is hoped to secure the co-operation of the United Farmers so that the convention may be thoroughly representative of both veterans and farmers.

Dr. Mustard, medical examiner for the Pensions Board, will be here from the 24th to 28th, and if there are any members who wish pension questions taken up the secretary can arrange interviews with Dr. Mustard.

that independent buyers are not offering tempting prices this year, and we can add that advance buying by prairie jobbers has not been a paying investment for some time. Growers must co-operate or take the inevitable consequences of going alone. Jobbers and independent buyers do not run their organizations solely for the purpose of encouraging the fruit industry in British Columbia—they look after their own interests, and B. C. producers must do the same.

We can assist an unorganized district to secure a limited market where we can supervise the produce and the price paid for it, beyond that we can do little for individuals.

The trade want car lots. Brokers will handle car lots of standard grade goods at competitive quotations. They cannot dabble in small, spasmodic shipments. These are handled on consignment only by concerns who specialize in small shipments. We can give growers a list of them.

THE PRAIRIE FRUIT MARKETS BULLETIN

Current Prices and Market Conditions

(From the Weekly Bulletin issued by J. A. Grant, Fruit Markets Commissioner, Calgary.)

Calgary, July 17, 1920.

The Week in Calgary

Most of this week your Market Commissioner has been on a flying visit to B. C. We found that the late season was responsible for a rapid ending of shipping strawberries. The Dominion Inspector, Mr. T. Bain, wisely decided to advise keeping the last car that was intended for the prairies at home. Roughly speaking only one-half of the expected shipping berries rolled. Prices have ruled high and the market for good berries has been bare.

We notice a few slack filled crates coming in and others badly streaked with green berries. Gordon Head straws are now off the market and Hanays are about over. The first car of raspberries will roll from Hatzic about Friday next. L.C.I. shipments are coming rapidly now.

A trial L.C.I. shipment of Oregon raspberries and loganberries was received in very bad condition and were refused by the trade.

The potato market is unsteady owing to the uncertainty of Vancouver quotations. We have heard of 5c per lb. offerings, but have no confirmation.

The weather here is warm. B. C. cherries are stiffening in price, Bings and Lamberts advancing 25c during the week. No change in hay prices—very little offering.

Eggs are advancing in price, this week's quotations being \$13.50 per case. Creamery butter same as last week. Dairy butter has advanced to 42c and 43c per lb. Sugar seems plentiful and little preserving is being done, chiefly due to its high price.

B. C. hothouse tomatoes are coming in considerable volume, but prices same as last week. Good supply of vegetables from B. C. on this market. Following are the Calgary wholesale prices:

Calgary Wholesale Prices
Fruits—Cherries, sour red, per crate, \$2.00 to \$2.50; Royal Anna, \$3.00 to \$3.75; Bings and Lamberts, \$4.00 to \$4.50; strawberries, per crate, \$6.00 to \$6.50; raspberries, per crate, \$6.50 to \$7.00; gooseberries, per crate, \$2.00 to \$2.25; rhubarb, local, per lb., 6c; cantaloupes, standards, 45c, \$7.00 to \$7.50; apples, No. 1 Winesaps, \$5.00; new California, pear box, \$5.75; peaches, California, per case, \$3.00; plums, California, per case, \$4.00 to \$4.50; pears, Cal., half boxes, \$5.00; watermelon, per lb., 7c.

B. C. black and red currants arriving but not sufficient yet to establish a market.

Vegetables—B. C. new potatoes, per lb., 9c; local potatoes (old), per lb., 5c; B. C. celery, Armstrong, per lb., 10c; new B. C. turnips, per lb., 4c; new B. C. carrots, per lb., 5½c; new B. C. beets, per lb., 7c; new B. C. cabbage, per lb., 7c; green peas, per lb., 12c to 15c; spinach, local, per lb., 5c; head lettuce, local, per dozen heads, 80c; hothouse cucumbers, per dozen, \$3.00 to \$3.25; B. C. local green onions, leaf lettuce, parsley, mint and radishes, per dozen bunches, 20c; B. C. hothouse tomatoes, crate, \$5.75 to \$6.25; onions, California, per lb., 5c; B. C. wax beans, per lb., 15c.

Speculation
Once upon a time a shrewd apple buyer was credited with setting the annual price of Western grown apples. He spent much of his time visiting competitive districts and getting observant information after the June drop, and when he was sure that all known parasites were off the job he would analyze the situation and announce the price of C grade apples, and all other grades adjusted themselves to the price of this grade.

This office spends public money in investigating along the lines above mentioned with a view of advising our growers and shippers on prices that would be safe (crop conditions, etc., considered), to quote. This year we have a new shock. We find prices of B. C. apples quoted in Winnipeg for 1920 delivery, before the growing season started, apparently made on the bud prospects during winter. This is "wild-cattin'" the fruit industry, and we intend to protest against continuing this unsafe policy. Crop conditions are not what they were last year, and no reliable concern can say what this year's apples prices will be yet. We do know that box material and all packing requirements have advanced, that labor will demand more pay for their share of the work, and that the crop will be short of last year. These things have some bearing on apple prices this year.

Growers Must Co-operate or Suffer
We are receiving many inquiries for a market from individual shippers. Most of them originate in districts that have excellently managed co-operative shipping organizations. We fail to see what good a list of prairie grocers would do them, as most of them would refuse to buy stuff at a set price that they have no chance of seeing, especially from a shipper they do not know.

We have too much on hand during the shipping season to attend to these requests, it would take a small army to do it. The general complaint is

THE KELOWNA COURIER AND Okanagan Orchardist.

Owned and Edited by
G. C. ROSE

SUBSCRIPTION RATES (Strictly in Advance)

To any address in the British Empire, \$2.00 per year. To the United States and other foreign countries, \$2.50 per year.

The COURIER does not necessarily endorse the sentiments of any contributed article.

To ensure acceptance, all manuscript should be legibly written on one side of the paper only. Typewritten copy is preferred.

ADVERTISING RATES

Classified Advertisements—Such as, For Sale, Lost, Found, Wanted, etc., under heading "Want Ads." First insertion, 2 cents per word; each additional insertion, without change of matter, 1 cent per word. Minimum charge per week, 25 cents. Filing fee for box numbers, 10 cents. The Courier, if desired, 10 cents extra.

Transient and Contract Advertisements—Rates according to size of space taken.

Legal and Municipal Advertising—First insertion, 12 cents per line; each subsequent insertion, 8 cents per line.

Contract advertisers will please note that, to insure insertion in the current week's issue, all changes of advertisements must reach this office by Monday night. This rule is in the mutual interests of patrons and publisher, to avoid a congestion on Wednesday and Thursday and consequent night work, and to facilitate publication of The Courier so as to reach country customers before Saturday.

THURSDAY, JULY 22, 1920

Orchard Run

We are glad to note that attention has been drawn by a writer in the Victoria Colonist to the prevalence of bad spelling and composition. The subject is not new but it requires reiteration to bring the need of a change in teaching methods home to the minds of parents and those in authority. The present-day deterioration in this respect seems clearly attributable to the development of a "high-falutin" system of education instead of adherence to the sound policy of our grandfathers that all children should be thoroughly grounded in the three R's before proceeding to higher studies. Youngsters in those days were not permitted to study the fancy "ologies, which modern educationalists claim are necessary to expand the youthful mind, until they could write a decent list, spell their own language correctly and express themselves in plain, clear style. Nowadays, education seems a bewildering mass of the mind-expanding side issues, and the youth or girl who leaves the public school at fourteen or fifteen has a thin smattering of knowledge, most of which is useless to him or her in after life, and is palpably lacking in the essentials which form the groundwork of all real education. Nor are High School business college students above criticism in regard to the elementaries. Every business man who employs a stenographer can testify to the trouble he has had at various times with employees who could write shorthand fast enough, but could not transcribe their notes into respectable spelling and grammar.

Will not some leaders in the teaching profession champion the cause of the three R's? The government seems only too ready to pile subject upon subject in the educational curriculum, aided and abetted by a certain element amongst the teachers scornful of the importance of the rudiments, and a change can only come about through pressure brought to bear by the teachers to restore reading, writing and arithmetic to their ancient position of supremacy.

In our issue of last week we printed an item referring to the passenger rate for fruit pickers coming from the Coast to the Okanagan being raised from the former figure of one cent per mile to two and one-quarter cents, with full fare for the return journey. In contrast to this compare the concessions granted to harvesters proceeding from Eastern Canada to prairie points. The rate to Winnipeg is only \$18 for a three-day journey, and from Winnipeg to stations on the prairies it is one-half cent per mile. Here is yet one more example of discrimination against the West. Freight rates, express rates, passenger rates—it is always the same. British Columbia has to be the milch cow supplying the cream for the Eastern skim milk. The fruit industry is just as important to the people of this province as the harvest is to the people of the prairies, and any concession given to aid in the harvesting of wheat should have its counterpart here in the picking of fruit.

If the Railway Commission was of real service, it would keep a watchful eye on such differential treatment and insist upon a fair and equal deal all round, but, like other public bodies, it has long since become fossilized through the strangling effects of red tape.

The clean-cut victory of "Shamrock III" over "Resolute" on Tuesday by a margin of 2 mins., 27 secs. was the first decisive win on sailing merits by a British yacht during the sixty-nine years since the first race for the "America's" cup, and it augurs well for the Irish yacht being the means of returning the coveted trophy to the shores of Britain if "Shamrock III" escapes the bad luck, a liberal measure of which has dogged previous challengers. The only other occasion on which a British yacht scored a win was when "Valkyrie III" led "Defender" by 47 seconds over the finish line in the 1895 series, but

was disqualified for fouling the American craft.

Prior to 1893, the races were contested between vessels of very different types. The British favored a long, narrow, deep, lead-keeled, plank-on-edge type while the cup defenders were generally shallow centre-board sloops of wide beam and light draft. In the coastal waters near Sandy Hook the British yachts made a poor success of the uncertain wind conditions and in only one race out of seventeen sailed during the years 1870, 1871, 1876, 1881, 1885, 1886 and 1887, was the margin by which they were defeated less than ten minutes. That was in 1885, when "Puritan" beat "Genesta" by 1.38 only.

Commencing with the races of 1893, the contesting craft began to approximate to a common type, both nations yielding their rigid adherence to extremes of design, and the style favored by both countries was that of fin-keeled vessels with deep fins and light, shallow hulls, with the immediate result that the racing became much closer. Series of races were sailed in 1893, 1895, 1899, 1901 and 1903, numbering fifteen in all. In three of them the challenger withdrew or did not finish, in two the difference at the finish reached double figures, and in all the other races the margin was comparatively small. In 1893, "Vigilant" defeated "Valkyrie II" by 40 seconds only, and the disallowed victory of "Valkyrie III" in 1895 has already been referred to. The best showing made by a challenger was that of "Shamrock II" in 1901, racing against "Columbia." The latter won all three races but by the narrow margins of 1.20, 3.35 and 41 secs. In the last race of the series "Shamrock II" actually crossed the finish line two seconds ahead of "Columbia," but lost out on her time allowance of 43 secs. to the American boat. The second race of the 1903 series was lost by "Shamrock III" to "Reliance" by 1.19 only. These seem but small differences for a 30-mile course.

Although "Shamrock III" lost yesterday's race to "Resolute," it was solely on time allowance, as she crossed the finish line before the defender, and reasonable luck in weather conditions should give her plucky owner his heart's desire.

OKANAGAN CENTRE

Mr. A. A. Green, who spent the past two weeks visiting at Grandview Ranch, left on Monday's boat for his home in Calgary.

Mrs. Hugh McLain, of Portland, Oregon, visited her old school friend, Mrs. John Arnold, of the Vernon Road, for a few days and left by Tuesday's boat en route to Ontario and the Eastern States.

Mrs. Duke went to Armstrong on Monday for a few days' stay.

We are pleased to note that Mrs. William Copeland, who has been ill

with erysipelas, is able to be around again.

Mrs. Chamberlain, of Calgary, is visiting her sister, Mrs. Jas. Goldie.

WOODS LAKE

Thunderstorms, accompanied by most brilliant displays of lightning and very little rain, have become daily occurrences lately. During one storm, a regular hurricane sprang up, wiping out quite a few apple trees pruned according to the old style. When all the limbs come out from the same place on the trunk, an ideal situation is created for disease and decay. In several trees practically the whole of the trunk had rotted.

The Sunday School picnic will be held on Saturday week, when the children and all who care to come will go down to the Centre and attempt to enjoy themselves by the lake.

Several growers have already delivered wax beans to the Occidental Fruit Company, Kelowna, for canning, demonstrating that we are early in this district as others who are supposed to be more favored. Tomatoes are also attaining considerable size, and should be ripening in small quantities very shortly.

Mr. Shanks and Mr. Coe made the journey to town last Thursday to attend a convention of the Kelowna Association, U. F. of B. C.

Mrs. Beasley was a visitor at the

B.C. Beans
Baked
The Old
Way

We take these meaty little white beans which grow so wonderfully in certain parts of B. C., add pork, "streak" fat, streak of lean" and catsup. Then we bake them the old-fashioned way, following the recipes used by old-time cooks for generations.

Take a can on your next outing.

DON'T SPEND YOUR MONEY—INVEST IT

LETTERS TO THE EDITOR

THE NEAR-BEER BY-LAW

Editor, The Courier.

Sir,—In your issue of the 15th your genial and hitherto reliable correspondent, Mr. R. E. Denison, makes an extraordinary statement regarding the Near-Beer By-law. He says that "the aldermen in drafting the by-law were obliged to follow the rules laid down by the B. C. Government in such cases." I regret to say that these rules exist only in Mr. Denison's imagination.

The authority of a city to regulate the sale of near-beer depends entirely on Sub-section (1) of Section 66 of the "British Columbia Prohibition Act". There is no other provincial law or regulation that mentions the subject. The said sub-section reads as follows:

"In every municipality and every city, the Council thereof may from time to time make, alter, and repeal by-laws for:—

(a). Regulating, licensing, and prohibiting any person carrying on the business of a retailer of beverages made from malt or hops or containing not more than two and one-half per cent proof spirits, and for imposing a licence fee on any such person, not to exceed two hundred dollars; and for providing that as a condition to any such licence granted as aforesaid such person shall not employ women for the purpose of selling any such beverages;

(b). Ordering and enforcing the closing of all places where soft drinks or drinkable liquids containing less than two and one-half per cent proof spirits are sold during such hours of the day or night and on Sundays as may be thought expedient."

Not one of the restrictions in the Kelowna Near-Beer By-law is made necessary by the above enactment. The Provincial Act does not say that games of chance—such as dominoes,

ROWLAND S. ILESLEY

who has resided at Kelowna for the past eight months, spent part of last week in Vancouver, where he was appointed representative of the New York Life Insurance Co. for the Kelowna district.

backgammon and old maid—shall not be played in hotels. It does not say that the lights of near-beer bar-rooms shall be kept burning all night. It does not say that near-beer bar-rooms shall be open to the street, so that everybody may look in. It does not say that minors under eighteen shall be excluded. For all these restrictions the Kelowna City Council, and it alone, is responsible.

The Provincial Act does not contain a single word which prevents the issue of a near-beer licence to grocers at a reasonable figure. The Vancouver Council has already established such a licence.

The Provincial Act does indeed authorize the prohibition of female labor, but does not make it compulsory. It was carried in Vancouver only after a long and heated debate, and no person suggested that the Council was obliged to make such a restriction unless it felt so inclined.

I fear Mr. Denison is slipping into bad company. A man who makes such erroneous statements must surely be training himself for the prohibition platform.

Yours truly,

R. B. KERR.

Kelowna, B. C., July 16, 1920.

Provincial Items

The second crop of alfalfa was being cut in the lower Similkameen last week.

Chinamen in Armstrong who have been working on Sunday have been warned by the municipalities that they must rest from their labors on that day, otherwise they will be prosecuted.

Sixteen applications for near-beer licences were received by the Kamloops City Council—four from the hotel bars, two from clubs and ten from buffets—and all were granted. The fee is \$200 per annum.

Returned men resident at Enderby who are property owners have made application to the Enderby City Council, through the local G. W. V. A., for rebate of taxes. The request has been taken under consideration for future decision.

Enderby has no street watering arrangement, and the Council has been unable to grant the request of fifteen business firms for inauguration of street sprinkling, owing to no provision having been made for its cost in this year's appropriations.

Autos will be handled by the C. P. R. between Hope and Princeton on Mondays and Thursdays, leaving Hope at 1 p.m. for Princeton, and Princeton at 10 a.m. for Hope. Proper loading and unloading facilities have been installed at Princeton.

Administration of irrigation water and adjustment of complaints in that regard consume much of the proceedings of the Summerland Municipal Council. A recent session lasted from 2 p.m. until 10:30 p.m., with an adjournment between 6:30 and 8:00.

A municipal poll tax of \$3.00 will be levied by the City of Vernon on all male persons over eighteen years of age who have not paid other taxes during the past year to the amount of \$5.00. Medically unfit soldiers, members of the active militia, those still on military service and men over sixty years of age whose last yearly income did not exceed \$700, are exempt.

The wires of the South-Kootenay Power Co. have reached Keremeos from Greenwood. While the line is being built primarily to supply power to the concentrator of the Canada Copper Co. at Allenby and to the mines on Copper Mountain, it is hoped that a step-down station will be established at Fairview for distribution of light and power by secondary lines from Fairview to Pentiction and from Fairview to the southern Similkameen.

Pentiction has under consideration the advisability of adopting the municipal manager form of local government such as is carried on by Kamloops, and two delegates are visiting Kamloops this week to obtain details of the operation of the plan. If carried out, the number of councillors for Pentiction will be reduced from six to four, and a manager will be appointed who will control the whole administration of the affairs of the municipality subject to the outlines of policy laid down by the Council.

DISPOSAL SALE OF ARMY BLANKETS

Reserve Stock Purchased for Imperial and Canadian Forces, offered in B. C.

An allotment of the reserve stock of Army Blankets ordered for the Imperial and Canadian Forces and of British Naval Hammocks has been secured for distribution in B. C. and is now offered for sale. The goods conform to strict government specifications and are offered in first-class condition.

ALLOTMENT FOR DISTRICTS

A reserve has been set aside for Kelowna and vicinity. This reserve will be observed until Aug. 10, after which the remaining stock will be "pooled" and unfilled orders filled in rotation. It is therefore advisable that orders be placed as soon as possible.

Delivered to any B. C. Point

To ensure wide distribution, distributors will send Blankets or Hammocks by parcel post or express to any point in B. C. Remittance in Money or Express Order must accompany order.

Description of Supplies

Army Blankets come in Grey, plain or with red or black stripe. Light or Dark Brown and Dark Grey. Sizes about 60 x 84 in. and 64 x 90 in. Weight averages about 4 to 4½ lbs. per blanket.

Naval Hammocks are made of best Linen Sail Canvas and should last a lifetime. Made by a Belfast firm.

Delivered Prices

Prices, including delivery to any P. O. or Express station in B. C.: Blankets, (per blanket) — Grey Wool, \$4.95; Brown Wool, \$4.95; Dark Grey, Browns and mixed colors in Mixed Wool—1st grade, \$4.50; 2nd grade, \$3.75; 3rd grade, \$3.25. Naval Hammocks, (slightly used) — \$4.75. Special prices on quantities of 50 or more on one order.

All orders must be accompanied by Money or Express Order (payable to "Army Supplies") and addressed Dept. H, Army Supplies, 566 Richards St., Vancouver, B. C.

WATER NOTICE

(Storage)

TAKE NOTICE that Malcolm McLennan, whose address is Postill Ranch, Vernon Road, near Kelowna, B. C., will apply for a licence for the storage of 2,000 acre feet of water out of Beaver Lake at the west end thereof, which flows westerly and drains into Vernon or Woods Creek. The storage dam will be located at outlet of Beaver Lake into Vernon or Woods Creek. The capacity of the reservoir to be created is about 2,000 acre feet, and it will flood about 60 acres of land. The water will be diverted from the lake at a point on west end thereof at outlet to Vernon or Woods Creek, and will be used for irrigation purpose upon the land described as District Lot 119, Group 1, Osoyoos Division of Yale District, and parts of Section 2, Township 20, parts of Section 35, and Section 26, Tp. 23, and E. half of W. half of Sec. 11, Tp. 20. The licence applied for is to supplement a right to take and use water as per Osoyoos Division Conditional Licences Nos. 3124 and 2668. This notice was posted on the ground on the 1st day of July, 1920. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is July 1st, 1920.

MALCOLM McLENNAN, Applicant.

WATER NOTICE

(Diversion and Use)

TAKE NOTICE that Fred A. Lewis, whose address is Rural Route No. 1, Kelowna, B. C., will apply for a licence to take and use 45 acre feet per day of water out of the slough situated on the east half of Lots 20 and 21, west half of Section 35, Township 26, and will be diverted from the said slough at or about the south-west corner of east half of Lot 21, and will be used for irrigation purposes upon the land described as Lot 20 and west half of Lot 21, Section 35, Township 26, Map 264. This notice was posted on the ground on the 12th day of July, 1920. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within fifty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is July 15th, 1920.

FRED A. LEWIS, Applicant.

MOTORIZING THE FARM

THE horse has been declared by Thomas Edison to be the most inefficient machine in the world. In return for the amount of food and care needed, the horse returns less in work than any other machine.

The average team of farm horses costs \$400, a good set of double harness \$100, a wagon without box \$115, making a total of \$615.

A Ford Truck costs \$750 at Ford, Ont. A Fordson Tractor costs \$850 at Dearborn Mich.

The initial cost of motorizing a farm is slightly greater than the cost of a horse outfit, but the lower cost of operation and upkeep of the tractor and truck and the greater amount of work done easily put the horse out of the running.

Government experiments have proved that the cost of feeding a horse is 8.7 cents per working hour.

A team of horses cannot plow more than two acres in a ten-hour day. At 8.7 cents per hour or 17.4 cents per hour for a team, the cost would be \$1.74, or 87 cents an acre. A Fordson Tractor plows on an average of seven acres a day. The cost per acre averages not more than 75 cents per acre for gas and oil. The Fordson does three and a half times as much plowing in a day at a smaller cost per acre.

Suppose you are hauling produce to market or bringing out supplies. If the town is twenty miles away it will take you a whole day to make the return trip

with horses. If you have a heavy load and the weather is hot it will take you two days. If it took you twelve hours, the cost at 17.4 cents an hour for your team would be \$2.09. The average cost of running a Ford Truck, for gas and oil, is 4½ cents a mile or \$1.80 for the forty miles. But with the Ford Truck you can make the return trip in four hours. The truck enables you to make three times as many trips and at a lower cost per trip.

But this is not all. If you motorize your farm you can get up an hour later in the morning. You have no horses to feed, groom or harness. You start work after breakfast.

When dinner is ready you stop at the end of the field, drive your tractor direct to the house, eat your dinner, and rest till it is time to go to work again.

In the afternoon your motor works just as well though the sun is hot and the flies are bad.

And at night when work is over you are through for the day,—no horses to rub down, feed or water.

You are always free to leave your farm for picnic or vacation—no worry about horses left behind to be cared for.

Every way you look at it the motor has the advantage over the horse. It means shorter hours on the farm, more work done in less time and at less cost.

WEEKLY CROP AND WEATHER REPORT

Department of Agriculture, Okan-
agan Horticultural Division

Office of District Horticulturist,
Vernon, B. C., July 17, 1920.

CROP REPORTS

Salmon Arm and Main Line Points
Strawberry crop is average, rain
would be beneficial but so far berries
are not suffering. Drop has been
very heavy on all apples except early
varieties, and crop will be less than
previous estimates. Weather is very
hot but crops holding up well so far.

Kelowna

Light rain the early part of the
week did much good. Tomatoes are
coming on rapidly. Onions are look-
ing well.

Summerland

The early vegetables are forging
ahead now. The various plots show
good healthy plants, at least there is
no sign as yet of any disease show-
ing, such as we had last season. High
temperatures prevailing all week.
Last Sunday and Monday some heavy
rains fell all over this section, which
was more than welcome; very little
damage to cherries by splitting.

CROP MOVEMENTS

In the Salmon Arm district straw-
berry shipments are going out, sweet
and sour cherries, and red currants
are moving in small quantities. Goose-
berries nearly over. Raspberry ship-
ments will start next week. The last
of the Lambert cherries were shipped
from the Osoyoos district on July 8.
Cherries are now coming into the
packing houses and canneries at Ke-
lowna, and are in excellent condition.
Cabbage shipped out this week were
excellent. The movement of cherries
is increasing every day now in the
Summerland district, and with the

continued hot weather cherry picking
is now in full swing, and the quality
is A-1.

WEATHER CONDITIONS

Generally warm and dry, with one
or two heavy rains in some sections.

MOTERING NOTES.

Water in Crank Case

Not all truck operators realize how
much water collects in the crank case.
This water mixes with the oil, form-
ing an emulsion, which has a low
lubricating value. All this to empha-
size the importance of refilling the
crank case with fresh oil every 1,000
miles or oftener, if possible, after the
crank case has been thoroughly
flushed out with kerosene.

Carburetor Trouble

Many cars have no provision aside
from a strainer in the tank for keep-
ing out dirt from the carburetor.
Owners of such vehicles will do well
to fit a trap in the fuel line. All the
big carburetor makers offer these
traps, which are to be placed in the
line near the carburetor or in the
bottom of the tank. The trap catches
all the dirt and water and should be
cleaned out regularly once a month.

Smother, the Fire

Ammonia generates a heavy vapor
that tends to seek the floor. In case
of a gasoline fire this vapor settles
on the flames, keeping off the air
and smothering the fire. A good sized
bottle of ammonia hung from the roof
of the private garage by a light but
strong string makes no mean fire ex-
tinguisher. The principle is that the
flames burn the string, letting the
bottle fall and break on the cement
floor, when the ammonia vapor
spreads and tends to smother or at
least check the fire.

SAVING HOME GROWN SEED

(Experimental Farms Note)

Although the cost of seed that is
used in planting a vegetable garden is
small compared with the returns, it is
very easy to grow the seed one's self
and moreover, if pure seed of a good
strain is produced at home, one is
sure of having what is required.

Seed of most varieties of vegetables
can be grown at home of as good or
better quality than is the imported
seed, but to ensure having good seed
it should be saved from the best
plants rather than from those which
happen to have been left in the garden
unused.

A few plants of peas left to mature
without picking any green pods from
them will furnish enough seed for the
garden next year.

Reserve a few feet of the row of
beans for seed, or, better still, mark
a few productive plants, which are
free from disease and do not pick
green beans from them. Quickness of
drying is important with beans and
peas, as with most seed, and it should
be cleaned and kept dry until the fol-
lowing spring.

If seed is damp it is liable to mould
and lose its germinating power. For
this reason it is particularly import-
ant in the case of corn to dry the seed
thoroughly and rapidly. When corn
becomes ready for use, a few of the
earliest and best developed ears
should be marked to be left until ripe
for seed.

One cucumber will contain enough
seed for the wants of the home gar-
den. A specimen which is typical
in shape and color of the variety
grown or the type desired should be
left on the vine until it turns yellow,
when it is cut open and the seeds
spread out thinly and dried and put
in an envelope until needed.

Seed is readily obtained from let-
tuce. One plant will produce
more than enough seed for home use,
and no doubt some radish plants have
gone to seed, which may be left until
the seed ripens.

The seed of tomatoes for home use
should be saved from the plant bear-
ing the largest crop of early and best
fruit. The tomatoes are cut in half
and the pulp pressed out into some
vessel, adding about one-third its vol-
ume of water. Put in a dark room
until fermentation sets in, which will
be in about two days, when the seed

will separate readily from the pulp.
It is then washed out and spread out
to dry but not in the sun. When dry,
store in paper bags until needed.

The seed of other vegetables can
also easily be saved, and there are
many persons in Canada who have
their own specially selected strains of
different sorts.

W. T. MACOUN,
Dominion Horticulturist.

MUSIC AND LAUGHTER IN 'PAL O' MINE'

With Miss Sarah Gibney in the
Leading Role

It is doubtful if there is any show
on the road today which contains as
much comedy—clean and refined as
that—music, songs and laughter, as
William P. Springer's great success
"Pal o' Mine", which will be shown
at the Empress Theatre next Wed-
nesday night, July 28.

The critics are almost a unit in de-
claring it a play on the very edge, if

not actually over the very line, of
genuine greatness. That in itself is
remarkable, because, after all, critics
being only human beings are subject
to personal prejudices. That it ap-
peals so strongly to them is in itself
an indication that on less calloused
individuals the sheer reality of the
story, its beauty of treatment and its
true dramatic worth will make a
greater and more lasting impression.
Miss Sarah Gibney, the well-known
young actress who won fame as
"Peg" in "Peg o' My Heart", will be
seen in the leading role, and is sup-
ported by an excellent cast of clever
actors, actresses and singers, includ-
ing Grace Witcher, Albert Thomson,
Al. New and others as well known.
A packed house is expected, and
reservations are now being made.

Merritt has established a "laundry
area" within which all laundries oper-
ating in the city must be located.
Laundries outside the area will be
given a permit to run for a certain
period pending arrangements to
transfer to the new quarter of the
town.

WED. JULY 28

The Gregory Tire & Rubber Company, Limited

VANCOUVER, B.C.

The Gregory Tire & Rubber Company, Limited,
has been organized for the purpose of building a
tire factory at Canada's great Pacific Coast port.
Consider the following:

THE RUBBER INDUSTRY

Twenty years ago it was in its infancy. The last
ten years—yes, the last five years—the business has
grown by leaps and bounds. Ten years ago people
thought the automobile was a fad. Now it is a per-
manent industry. What interests us is that every
automobile runs on four tires.

Millions of profits in the tire industry

HAVE BEEN MADE—
ARE BEING MADE—
WILL BE MADE.

Who has been getting these profits? Have you
had any of them? Are you ready to grasp the
opportunity which will assure you of a share in the
future profits?

LOOK! An authority told me today that since
January 4,000 new cars have been sold in Vancouver,
making a total of 20,000 cars now in use in British
Columbia. Do you realize what that means? It
means that these automobile owners will buy one
hundred thousand tires next year at a cost of ap-
proximately four million dollars, and the money for
these tires goes to the eastern manufacturers. The
payroll and most of the dividends stay there. Don't
take our word for it. Verify this fact. Think for
yourself. Here is another important fact: Practi-
cally every pound of crude plantation rubber used in
tires and tubes passes through Pacific coast ports.
So far as Canada is concerned, that means Van-
couver. All you have to do to satisfy yourself on this
point is to go down to the dock and see for yourself.
After it is shipped east, manufactured into tires and
tubes, great quantities are shipped back west. Will
you tell me why we do not make tires here—keep
the payroll here—pay the dividends here?

(1) The rubber is here.
(2) The chemicals are here.
(3) Our water rates are cheaper.
(4) Our electric power is unlimited and at a most
reasonable rate.
(5) Our fuel is cheaper.
(6) The labor is readily obtainable.

In view of these facts there is only one answer
to the question. Somebody is asleep at the switch.

On the question of profits:

\$1,000 ORIGINALLY INVESTED IN:

The Firestone Tire & Rubber Company became
worth \$150,000.
The Diamond Rubber Company became worth
\$150,000.
The Kelly-Springfield became worth \$50,000.
The Republic Rubber Company became worth
\$80,000.

First Unit of the Home of The Gregory Tire & Rubber Company, Ltd., at Coquitlam, B.C.

Fisk Tire & Rubber Company became worth \$120,000.
Goodyear Tire & Rubber Company became worth
\$125,000.
Dunlop Tire Company became worth \$130,000.
The B. E. Goodrich Company became worth \$695,000.

You don't have to go abroad to see it. The
Financial Post just recently gave the report on the
Canadian Consolidated Rubber Company, showing
49 per cent on common stock!

Only a limited amount of this Stock left.

Now is your chance to get some of it at \$10 per
Share, par value. If you want, terms can be
arranged on partial payment, without interest.

The Gregory Tire & Rubber Company, Limited,
was chartered in B. C. in May, 1919.

Placed \$500,000 on the market for purposes of
development, all of which has been sold to Canadian
people.

\$100,000 additional placed on market April 15,
1920, which is nearly sold.

The management of the company is selected from
among the best men of British Columbia.

It is strictly a Canadian company.

Is the only rubber factory in Canada west of
Ontario.

Was voted \$40,000 in bonds by the Town of
Coquitlam to locate there, besides limiting its taxes
for ten years to \$200 per annum.

Owns ten acres of land for its buildings in the
heart of the town.

Its Building of reinforced concrete costing \$70,000
is completed and \$240,000 of machinery installed.

Has \$60,000 worth of crude rubber in warehouse,
and other raw material on hand to operate for nine
months.

Has not a dollar of liabilities.

Has no promotion stock and every dollar derived
from the sale of stock has gone into the plant.

No salaried officers except its secretary, and he
only since March, 1920.

Is a clean business proposition put on by Van-
couver business men to help British Columbia in-
dustries.

THINK THIS OVER

It is currently stated that:

Five hundred dollars invested in Miller Tire stock
within FOUR YEARS became worth \$1,625.00.

Five hundred dollars in Mohawk stock has in-
creased in a period of FOUR YEARS to \$8,700.00.

There is no logical reason why a properly man-
aged rubber factory in Western Canada should fail
to do as well as these factories mentioned.

I just picked up an address by Mr. F. A. Siberling,
president of The Goodyear Tire & Rubber Company.
Here is what he says to his thousands of share-
holders:

"The past year we have earned, not taking into
account what may be deducted for Federal taxes,
61½ per cent for the common stock of this company."

If you have an automobile, we will save you 45%
of your tire bill each year for ten years. Ask about
this offer, it will interest you.

FRUIT AND VEGETABLES FOR THE COMING WINTER

Practical Advice on Canning, Drying and Storing

(From "Seasonable Hints", Issued by the Dominion Experimental Farms)

It is now the season for canning fruits and vegetables and, though the price of sugar may be high, thus tending to discourage housekeepers from canning as much fruit as they would otherwise do, yet there are few who will care to be without a fair supply for the long period until the fresh product is available again.

Every year a large number of cans of fruit and vegetables spoil and, especially under present conditions, it is important to reduce the loss to a minimum. This is done by ensuring thorough sterilization of the jars into which the product is put and thorough sterilization of the product itself. The germs of decay, mould, and bacteria are practically always present and, unless destroyed, will attack and spoil the fruit and vegetables. Moulds usually form in the surface only, but, when the product becomes soured, the whole of the product is spoiled. This souring, or "Flat Sour", as it is called, is due to various causes.

In the bulletin on "The Preservation of Fruits and Vegetables", issued by the Horticultural Division in 1919, the author, Miss Margaret Macfarlane, gives the following causes for Flat Sour:

1. By the vegetables being allowed to stand in the cold water of the blanching period for a longer time than is necessary. Never blanch or cold dip more than you can pack at once.

2. By the jars being allowed to stand after being filled with boiling water, before being placed in the canner or sterilizer. If one or two of the jars are in the canner a few minutes longer than is necessary the fruit or vegetable will not be affected, while if the jar were left on the table for a corresponding length of time "flat sour" might be started.

3. By the jars being placed close together after being taken from the canner which prevents their cooling rapidly.

4. By the product being allowed to stand over night before canning. Peas, beans, corn and asparagus which are overripe or too mature when canned will readily "flat sour".

To prevent "flat sour":

1. Can within five hours after picking.

2. Can only young, tender, fresh products.

3. Blanch, cold dip and pack one jar of the product at a time, and place each jar in the canner as it is packed. The first jar will not be affected by extra cooking.

4. Cool the jars as quickly as possible, but do not let a draught strike them.

Another important factor in successful canning is the preparation of the canning utensils. The following quotation from the bulletin already referred to deals with this:

"If jar has been used the previous year, special attention must be paid to washing. Wash carefully in clean, hot, soapy water. Rinse in hot water and test. Test every jar, top, and rubber. See that the edges of the jar or top are not rough, by running your finger around the edge. All sharp edges should be filed or scraped off. Fill each jar half full of warm water, adjust the rubber, put on the cover and snap the wire clamp. Turn jar upside down to see if it leaks. In using a Perfect Seal jar, if the jar leaks, the clamp may be tightened by turning the spring of the clamp underneath the word 'tight' on the neck of the bottle.

"Never use a rubber ring which has been used before. Old rubbers lose their elasticity, are brittle and break when stretched. Test rubber by folding the ring and pressing tightly. Turn it over and reverse the fold in the same place. A good rubber ring will show no crease or break where the rubber has been folded.

"After the jars have been tested they should be put on in warm water and boiled for 10 minutes. The tops and rubbers should also be sterilized for the same length of time."

Drying Fruit and Vegetables

Fruit and vegetables can be dried quite successfully and simply, and many take advantage of this. Where one is assured of hot, bright days, drying in the sun is the easiest method. The plan is to spread the product out thinly on something clean, and then to ensure its being protected from dust and insects it is covered with cheesecloth, which permits a circulation of air, the cheesecloth being supported on a frame and not directly on the fruit. The fruit or vegetable should be turned once or twice a day. The product should be taken inside at night and if rain threatens. Another method is to dry in the oven or on trays hung above the stove. When

WESLEY BARRY.
"DON'T EVER MARRY"

Showing at the Empress Theatre, next Monday and Tuesday

sufficiently dried, the product should be somewhat pliable rather than brittle. The latter condition is often found when drying is done too rapidly. The dried product is left in open boxes for a few days to make sure it is sufficiently dried and poured from one box to another each day to mix thoroughly and ensure all being dry. It is then put in tightly closed cans, or even strong paper bags well closed. Beans, celery, corn, peas, onions, and pumpkin are among the vegetables that may be easily dried. Apples and raspberries are two of the most satisfactory fruits.

In storing fresh vegetables for winter, it is well to remember that onions must be kept very dry. They should be dried as much as possible outside, and when brought in spread out thinly in a well ventilated place. If stored with much moisture in them they are very liable to rot.

Celery needs moisture at the roots when stored, but the tops should be kept dry to lessen danger from disease.

One of the best methods of ripening green tomatoes is to store them before they are touched with frost in closed drawers in a room where the temperature is between 60° and 70° Fahr., or above.

Potatoes should be dry when stored, as there is less likelihood of rot if there is disease in them. A dry, cool, well ventilated cellar where the tem-

perature is between 33° and 35° Fahr., is best for potatoes.

Squash should be stored in a comparatively warm, dry place, if they are to keep well. The temperature should be about 50° Fahr., or more.

W. T. MACOUN,
Dominion Horticulturist.

Tasty and
Not so
Heavy as
Meat

Beat together 1 cup of bread crumbs, 1 cup of grated cheese, 1/2 cup of Pacific Milk, 1/2 cup of water, 1 egg.

Add a little red pepper and salt. Put into a greased dish, brush the top with butter and bake half an hour.

This is surprisingly good and is not so heavy as meat. Try it, it is, as you see quite simple.

BOY SCOUTS' COLUMN

Troop First! Self Last!
Edited by "Pioneer."

July 20, 1920.

The 1920 Troop Camp came to an end on Saturday last and was undoubtedly one of the most enjoyable which we have yet held, of which it numbered the eighth and the fifth at Cedar Creek. A small Camp makes an easier job for those in charge and the Scoutmaster this year had the assistance of both Commissioner Henegane and A.S.M. DuMoulin, the latter being the Camp Quartermaster as well. As this is a Column written by Scouts themselves we hesitate about saying nice things about each other, for fear that we may give the appearance of a mutual admiration society, but we feel that the Troop would not wish the occasion to go by without expressing our thanks to the Commissioner for all his help in Camp in the taking of tests for Badges and as the daily football referee. He is a good type of an English sportsman of whom we cannot have too many in this province. The Cubs took over the Camp from us and they are returning home on Thursday. The Commissioner stayed with them until this morning when he left for Vernon. From Vernon he will go to Summerland. The Vernon Troop was fortunate in their representatives P.L.'s Shafford and Ball, and they both secured a very certain place in the friendship of their Kelowna brother Scouts. They were the guests of Mr. J. Ball and Mr. D. D. Campbell over Sunday and left for home on Monday morning. It was also a great pleasure for us to have the society and assistance of A.S.M. Allen Harris, of the Summerland Troop, for the greater part of our Camp. A.S.M. Parkinson, of our Troop, was unable to attend this year but did good work in town in arranging for cars and supplies.

Since the last Column was written the following made car trips to Camp for which we wish to thank them very much. Messrs. DuMoulin, Cunningham, Buck, Mantle, Harvey, Taylor and Groves. We also wish to thank the following donors for their much appreciated gifts: Mr. McCarthy for a freezer of ice cream, former Troop Leader Keller for cherries, Mrs. Shepherd for a cake, Messrs. L. E. and F. A. Taylor for cherries, Mrs. Windsor for a pot of jam and box of apples, Mr. Mantle for eggs, Mr. Henry Burch for a freezer of ice cream, Mr. R. E. Denison for a cash donation of \$5.00 and Messrs. P. B. Willits & Co. for their annual replenishment of our First Aid equipment, including the "snake-bite" antidote, which seemed to cause so much amusement. We might add, however, that the snakes were not biting very freely even although we raided one of their favorite places on this side of the lake, Deep Creek. The sea-serpent even did not look us up.

Further badges obtained in Camp were the Naturalist by P.L.'s Shafford (Vernon) and Neish and Scout B. McCarthy, the Swimmers by Acting P.L. Neish and Scout H. Dore, Second Class Ambulance and Mile at Scouts' Pace by Scout M. Taylor and the Signalling and Points of the Compass by Scouts H. Brown and E. Harvey.

There will be no further regular parades until September and if we are unable to obtain quarters perhaps not then. In the meantime, however, we can take tests for all the badges which any of the keen Scouts in the Troop wish to pass.

The Tent Inspection was won by the Otters with a lead of seven points over the Eagles who were second. The latter also tied with the Otters in the number of firsts obtained so it was a close race. The Otters also obtained the greatest number of points at the Thursday sports, although the Eagles won the principal item of raising and stowing a tent.

We trust that every Scout in the Troop will do his utmost to enter every possible event at the coming regatta, and we must add here how much we appreciate the kindness of the Aquatic Association in letting us have a boat for our Camp free of charge.

OKANAGAN MISSION

There will be a meeting of No. 1 Flume on Friday night, at 8 o'clock, at Mr. R. Gray's residence.

Mr. and Mrs. A. S. Burdekin are the parents of a little daughter, born at the Kelowna Hospital.

We are pleased to state that everybody in the Okanagan Mission district has filled up the new registration forms.

The Boy Scouts have been camping at Cedar Creek during the past week, their nightly campfire being visible to all those living on the lake shore.

We regret to announce the death of the infant son, aged six months, of Mr. and Mrs. J. W. Bell, which took place on Wednesday last, the 14th inst. The little one was buried the following day in the local cemetery.

Sea-serpent—yes! Not having actually seen ourselves this monster that lives in the lake, we firmly believe there must be one. It is reported to have been seen upon several occasions. Wallie Moore, who was looking after the Mitchell Ranch whilst the owners were away in England a few years ago, reported having seen it and would reiterate this on almost every occasion. Other people also have seen it. Some day it will be caught by somebody trawling and then we shall all see it. Let us hope the other man catches it.

Keep to the right! Two minor motor car accidents occurred on the Lake-shore road last week. Slight damage was sustained by the cars and nobody was seriously hurt.

The following is an up-to-date list of the Okanagan Mission Roll of Honor. There are a few names mentioned of men who had left the Mission a short time before joining up. It is difficult to draw the line so we have included all these names. Should

this be incorrect in any detail we would be pleased if you would inform us immediately, when we will make any necessary corrections:

PHENOMENAL RECORD BY STUDEBAKER CAR

Famous Auto Climbs Studebaker Hill, the Tourists' Terror, on High

Studebaker Hill is just south of Malone, N. Y. Thousands of tourists have descended it with a shudder, awed by its steepness, alarmed by its sharp turns. They have frantically shifted gears on the ascent and wondered if there was enough "left in her" to make it. No automobile had ever before climbed the steep ridge on high. But while several hundred enthusiasts gathered, doubtful, on the crest of the hill, the feat was accomplished with a Big Six Studebaker.

The test was an absorbing topic throughout the Adirondacks and Northern New York generally, and speculation was rife over the outcome of the test, very few thinking it could be accomplished, while drivers and owners, priding themselves on their knowledge of machines of all makes, laid wagers on the test.

"A Studebaker can't make it," declared the wisecracks, "at least not a stock car. Why, you know Studebaker Hill, don't you? It's a mile and a half long and it seems to be headed straight up. I'll tell the world it can't be done."

And so the eyes of autoists were focused upon the steepest hill in the Adirondack mountains and in the presence of a large gathering the Studebaker was several times sent over the series of steep grades in the hill without touching the clutch or gears. The demonstration began at 2 p.m., but did not stop with one trip, the car making six one after another and taking passengers.

The following official record of time was established:—50 miles at base of hill after short start; 25 miles at the first turn; 15 miles at the middle; 30 miles through a crowded road before the crest of the hill; 35 miles at the summit. The road was in a very bad condition, but despite this fact no trouble was experienced. Studebaker Mountain is 1,900 feet high. It contains two extremely sharp turns.

Perhaps the most remarkable demonstration of the day was the performance of a Special Six Studebaker of 50 horse power. This car, while of much less horse power, apparently made the hill as easily as the larger and more popular machine, much to the delight of the many interested spectators. Although Mr. Sharp had advertised the fact that he was going to attempt to perform this hitherto impossible feat, and had invited other car salesmen of all makes to compete, no car of other manufacturers made the attempt, although several were present and were eye-witnesses of Mr. Sharp's performance.

Mr. J. F. Dowling, representative of the Studebaker car, was present during the trials and when interviewed in regard to the wonderful achievement of the well known automobile, stated to reporters as follows: "It was the first time I had ever seen the well known Studebaker Hill. I had heard of its many times but had no idea of its true nature. Although I realized that the Studebaker car was in a class by itself, I was skeptical upon viewing the hill of the possibility of ascending it on high. However, I am thoroughly satisfied with the results and wish to congratulate Mr. Sharp, our local representative, for his efforts in informing the public of the wonderful qualities of the Studebaker."

Hereafter Studebaker Hill should be known as Studebaker Hill.

KELOWNA

Local and Personal

Miss Fleming was a passenger to Vancouver on Monday.

Mr. and Mrs. L. V. Rogers returned from Victoria on Monday.

Miss Arbutnot left on Tuesday for a vacation at Cornwall, Ont.

Mr. F. W. MacLaine, of Vancouver, was a visitor to town on Thursday.

Mr. R. Clynton Brown returned on Saturday's boat after a two weeks' vacation at the Coast.

Miss Jenny Dillon and Mrs. Harry Dillon left on Wednesday morning for a short visit to Vancouver.

Mr. W. Harvey went to Canmore on Monday for a brief holiday and will also visit Banff before his return.

Mr. E. Blenkarn, who had been at the Coast for several months, arrived in town by the Monday afternoon boat.

Mrs. H. Chapman, of Calgary, arrived in the city yesterday, and is the guest of Mr. and Mrs. R. J. Brown, of Graham Street.

The secretary of the Kelowna City Band wishes to acknowledge with thanks receipt of the following subscriptions: Mr. J. N. Thompson, \$10; Mr. J. L. Pridham, \$10; Mr. Thos. Bulman, \$5.

Mrs. D. H. Learn, who had been spending the past six weeks with her parents, Mr. and Mrs. E. Weddell, returned to Seattle on Tuesday. She was accompanied by her sister, Miss V. Weddell.

Mr. and Mrs. W. R. Foster, recent arrivals from the Grimsby fruit district, Ontario, on Monday completed arrangements for the purchase of the old Loosmore Ranch, at Rutland, comprising twenty acres of good fruit land.

Mr. F. A. Wood, who was a resident on the K. L. O. Bench about fourteen years ago, returned to New Westminster on Friday after a visit of two weeks to his mother-in-law, Mrs. R. Smith. He served in France during the war.

Mr. and Mrs. D. McLean returned on Tuesday from a visit to their son, Lieut. McLean, at the Balfour Sanatorium. They found him in a much improved state of health, and the treatment at the Sanatorium is benefiting him greatly.

Mr. W. Haug and his two daughters returned on Sunday from an enjoyable trip by car as far as Moscow, Idaho. They were piloted by Mr. "Barney" Newstrand, and a distance of 1,190 miles was covered without any serious mishap or mechanical trouble, although the roads were bad in places. The return journey from Grand Forks was made in about nine hours via Osoyoos, including stops on the way.

Editor Walker, of the "Okanagan Commoner," Enderby, motored to Kelowna recently, and the result is that he expresses himself enthusiastically thus: "In the Lakeview Hotel with Jas. Bowes as proprietor, Kelowna has an asset that would be hard to beat. As an additional asset, the delightfully situated park on the lake front, with bath house and dance pavilion conveniently near; what a place for a few weeks' outing in the summer season!"

Mr. H. E. Weymouth, of the Coquitlam Securities, Ltd., is in town this week in the interests of the Gregory Tire & Rubber Company, Ltd., which is erecting a large factory at Coquitlam, B. C. A reinforced concrete building has already been completed at a cost of \$70,000 and \$240,000 worth of machinery has been installed. The enterprise is the only one of its kind in the west and the field for its efforts would seem to be a splendid one. Practically all the raw rubber used in Canada passes through the port of Vancouver to Eastern factories, and British Columbia's requirements in tires and other manufactures of rubber are hauled back again the width of the continent. The local market alone for the Coquitlam company's products will take care of a very large output, while an inviting field is also offered on the prairies with capabilities of unlimited expansion.

Announcements

Two cents per word, each insertion; minimum charge, 25 cents.

Dr. Mathison, dentist. Telephone 89.

Miss C. Arbutnot left on Tuesday for a five weeks' vacation. During her absence the store will remain open. 1-1p

A meeting will be held of the shareholders of the Canadian Pacific Oil Co., in the Kelowna Board of Trade rooms, on Friday evening next at 8 o'clock. A full attendance is requested. Important business. 1-1p

The Kelowna Aquatic Association announce that a dance will be held on Saturday evenings in addition to the Wednesday dance, to accommodate country members who find Saturday more convenient. For members only. Season tickets can be had from H. G. M. Wilson, Secretary. 1-1c

Boys Wanted

NOTES ON SPORT

"Scotty" Neill will be missed in the lacrosse game at Armstrong this afternoon, his work on the defence in the last two games being outstanding. For a Scotchman he is most liberal in his checks.

Sport locally has had a period of quiet recently, no league games being scheduled. Next Thursday will give the fans an opportunity to see Armstrong compete in lacrosse with the locals on the City Park grounds, followed by Lumby in soccer.

Armstrong is entertaining Kelowna representatives of lacrosse and baseball this afternoon, and the hope is entertained of keen contests with Kelowna carrying off the honors. The football boys are also abroad today, playing at Vernon in a scheduled game. This promises to be a ding-dong battle, as on previous occasions.

Vernon had a fairly successful day last Thursday, in the sports line. In the early part of the afternoon they trampled over Kelowna in baseball—for one inning only—but that inning

was brimful of agony and runs—just ten—and what they did to Norman DeHart with the hickory is a crime to tell. A few errors and a walk also helped to assure victory to the north town team, the final score being 11-3. Winning at baseball seemed only to whet the insatiable appetite of Vernon athletes, and they went after Armstrong in lacrosse as though they had a mortgage on victory over that hitherto invincible team. Three to two was the final score. To make the day a real joyous affair they finished up with a win over Lumby in football.

Clare McPhee, home player on the local stick handlers, is on the sick list and it is doubtful if he will participate in further games this year. Luck or fate seems to be continually working against the lacrosse team, as all through the season the team has been playing under a handicap of injury and sickness. But, unlike Enderby in baseball, they will play out the schedule as arranged, win or lose.

Glenmore lost to Kelowna on Tuesday evening in a scheduled game of the Kelowna District Baseball League. Owing to the late start only three innings were played, Kelowna at that stage being on the big end of the score. The game may be declared

off on two points, probably, one being the inclusion by the locals of senior league players, and also that five innings constitute a game. This league has not been an unqualified success, the games invariably starting late, and not much hope of betterment is in sight for next year unless daylight saving should be inaugurated. Twilight leagues are common down on the prairies but here in the hills the sun sinks to the zenith too rapidly for evening play.

Much interest is being taken in the lacrosse game at Armstrong this afternoon, as a defeat for Kelowna will almost certainly put them out as contenders for the championship. Armstrong and Kelowna have met twice already this season, with the north town victors on both occasions. Armstrong, however, was fortunate in their victories, inasmuch as the locals were never able to present their strongest line-up, owing to injuries to players or absentees. The line-up for today is probably the strongest presented against the Armstrong team this year, the only absentee being "Scotty" Neill. Captain "Bill" Spear has moved himself up on the home, and much improvement in the attack is expected from this move. The team will be selected from the following: Kincaid, D. McMillan, C. McMillan, B. Raymer, Caldwell, Fowler, McLennan, Day, Wilson, G. Fuller, A. McMillan, Urquhart, Spear and W. Fuller.

NEWSPAPER SUSPENSIONS

(Reprinted from The Financial Post, July 17)

The reduction in the number of daily newspapers by suspensions, absorptions and amalgamations, is not alone due to higher paper and other costs, but to changing conditions in the newspaper business, and is likely to continue, for we are entering upon most critical times for them.

The main supply of world-wide news is now furnished by the Associated Press and several other news-gathering services. Exactly the same general, and much of the local, news appears in every daily newspaper in Canada. The same condition exists in the advertising columns. This standardization of news and advertising service is likely to go on steadily improving, and the publication of more than one good morning or evening paper in a centre is becoming very much of a wasteful duplication of effort. A good daily paper, even in the smallest centres, is well worth, and should be sold for five cents, and a family should be content with one.

Rural weeklies, national weeklies and periodicals are in a different class. Their contents are entirely original. That is, they do not appear in any other publication. They are becoming increasingly more expensive to produce. The reading matter in a single issue of a leading Canadian magazine costs more than eight to ten times the whole reading contents in a leading daily paper.

The Free Press, Forest, Ontario, refers to the passing out, because of increased costs within the last few years, of eight of the fifteen newspapers published in Lambton County. This will be regretted by those who know country life in Canada. A rural weekly and small city daily is more of a public institution than a money-making enterprise. There are few editors of rural and smaller daily papers who are not underpaid, self-sacrificing public servants. They give more to than they get from their communities, and when they are leaders, as so many are, commanding respect and confidence, their papers are a great power. The Financial Post is in cordial sympathy with the action of Parliament in continuing—in spite

of the opposition of the big city dailies for whom R. L. Richardson, M.P., spoke—to transport rural weeklies free of charge in their local districts. Another phase of good work these local papers do is to keep those who go out into the world, to the big centres and foreign parts, in touch with their old homes. For that reason we would also favor carrying copies of rural papers going to these subscribers free of postage. This is really a great national service, a good investment for the country. There are few men or women who do not hope to go back to and do something for the old home. If the world treats them well they want to share the good things with the schools, churches and institutions in their old homes. Many of them do. These generous thoughts can be best retained by keeping them constantly in touch with the things at home. There is only one way—the local newspaper. No matter how busy we are we make time to read that, if it comes to us. At one time these papers were carried free to any subscriber in Canada or in the United States, but Dr. Coulter dropped this very soon after his advent to the Deputy Postmaster-Generalship. It was a very serious mistake. Thousands of Canadians were cut off who have never since regained touch.

We submit these facts to Parliament with the suggestion that they, the M. P.'s, seriously consider whether—as a good business proposition—we should not permit these rural weekly and smaller dailies an unlimited free postal area. The investment will be trifling and the return to the nation very profitable.

NOTE PUZZLED SAVAGE

Writing is very puzzling to savages. In South America, on one occasion, a native was sent by a missionary to a friend with a note and four loaves of bread. The native ate one on the way and was amazed to find that the note discovered the theft. On the next occasion that he was sent with four loaves he sat on the note while eating one of them.

THE MOST USED BLADE

Teacher (at object lesson): "So now, children, you know how a knife is made. I want you, Marjorie, to tell me which is the most important part of a knife."
Marjorie: "Er—er—er—"
Teacher: "Well, I will help you. What part of his knife does your father use the most?"
Marjorie: "The corkscrew."

WHO HATCHED THIS?

Grandpa—"Just hear that baby crows!"
Pa—"What's strange about that? His mother was some chicken."

THE BITTER RETORT

Temperance Orator: "When the rich man was in hell-fire, what did he ask for? Did he ask for whiskey? No! He asked for water. What does that show?"
Voice: "It shows where the teetotalers go."

Buying from Angus McMillan is investing money—not spending. 1-c
